

Job Description: Microsoft Infrastructure Consultant

Overview

Capito is seeking to recruit an experienced **Microsoft Infrastructure Consultant** who is well respected in their field, specifically with a background in Microsoft System Center Configuration Manager, Windows 10, Office 365, providing support around the Microsoft infrastructure stack and preferably with Azure and / or AWS cloud experience.

Roles and Responsibilities

Based from our Headquarters in Livingston, you will be delivering consultancy services to our commercial and public sector customers mainly in Scotland and sometimes beyond. Working as part of an experienced team of Microsoft and VMware Consultants, you will be engaged in all aspects of Microsoft infrastructure solutions from pre-sales, design, implementation and support.

Capito is an expanding sales-driven organisation and you will be working to support the Sales team in designing infrastructure solutions that meet and exceed our customers needs.

This is a great opportunity for a commercially minded consultant to work in a dynamic company.

Person Specification:

- Extensive knowledge of Microsoft Solutions including design and implementation of Windows Server platforms, Office 365 migrations, Active Directory, Group Policy, System Center Configuration Manager and Exchange Server
- Proven hands-on End User Computing experience including operating system deployment skills, utilising System Center Configuration Manager and Microsoft Deployment Toolkit to deploy and upgrade Windows 10 operating systems

Experience of designing, building, deploying and supporting Microsoft Infrastructure solutions, including Server and Client Operating Environments (SOE / COE)

- Strong knowledge of IT Infrastructure and related technologies
- Extensive knowledge with Infrastructure migration and refresh projects.
- Excellent customer facing communication skills
- Server/network maintenance and administration
- Knowledge of Data Centre technologies (Server, Storage, Networking)
- Experience with Hyper-V or other virtualisation environments and / or thin client environments would be beneficial
- Assisting the sales team with writing statement of works and project proposals
- Flexible and open to adapt to technology changes
- Ability to manage multiple projects and activities

Working pattern

- Full-time (37.5hr), Permanent role
- 9-5.30pm Monday to Friday.

Salary

- Dependent on experience and qualifications

Apply

If you wish to be considered for this role, please email your CV along with a covering letter to HR@capito.co.uk
